The Summer Academy is supported by funds from the Social Sciences and Humanities Research Council.

ABOUT TSAS

TSAS engages in policy relevant research and dissemination on terrorism, security and society. The TSAS network is designed to foster: communication and collaboration between academic researchers working on these topics in Canada; communication and collaboration between academic researchers and policy officials in these subject fields; and links with research on these topics in other countries.

PURPOSE OF THE SUMMER ACADEMY

Beyond supporting research and dissemination, TSAS aims to cultivate a new generation of well-informed individuals across several kinds of institutions. The Summer Academy is a principal part of this plan and brings together graduate students, civil servants, law enforcement officers, and members of non-governmental organizations from across Canada to participate in a highly focused learning experience. The Summer Academy is designed to introduce a

comprehensive understanding of radicalization, terrorism, and security and how all of these are situated in the context of a rapidly changing Canadian society.
